We are keen to hear from you if you possess the right depth and breadth of technical and business skills required to architect the right outcomes for clients.

Junior Solutions Architect role at TriVersa Ltd, Lagos, Nigeria

Junior Solutions Architect

We are currently looking to recruit a fulltime Junior Solutions Architect with some knowledge of IT, Business, Data and Application architectures. We require someone with experience in IT consultancy and project management to join us. This individual must have basic knowledge of TOGAF and COBIT. He or She must have worked on a couple of large IT projects involving Data, Applications and Business Services.

Responsibilities:

- Ability to communicate and sell the vision of Enterprise Architecture (EA) to a large organisation and also able to provide guidance towards adoption and embedding EA within the organisation.
- Developing enterprise solutions concepts to match customer specific business and services agenda
- Familiar with specific use of EA in at least two of the following sectors: Banking, Insurance, Telecoms, Government, Oil and Gas and Aviation sectors
- Experienced at performing architecture impact assessment exercises and able to positively influence business architecture and strategic business objectives
- Able to define principles, policies, processes to govern adoption of Enterprise IT architecture within an organisation
- Able to assist with the setup of an Enterprise Architecture Practise (EAP) - in line with standards and best-practise
- Able to assist with defining strategic technical leadership and governance for an enterprise
- Experienced at underpinning business units with the right-fit EA framework
- Able to assist an enterprise in establishing appropriate peer review board, document critical processes and establish the path for achieving IT architecture certification
- Can assist with the responsibilities associated with design authority function
- Can perform architecture planning, standards definition and architecture reference model authority functions
- Able to carry out design reviews and assessment and definition of critical design principles in alignment with strategic information systems delivery objectives
- Conduct strategic solution roadmap definition, guidance and management activities in support of strategic enterprise solution initiatives
- Extensive knowledge of software engineering principles and practices, including leading major integration opportunities
- Good knowledge of Integration of Enterprise solutions and delivery strategies
- Can facilitate delivery of the target IT architectures as well as promote quality standards
- Mapping of solution to enterprise architectures and other stakeholders objectives; ensuring adherence to Enterprise Policies, Standards, Compliance objectives, Strategic direction, Accreditation and quality objectives

Junior Solutions Architect role at TriVersa Ltd, Lagos, Nigeria

- Provide architecture documentation of Enterprise Services and participating in change advisory boards
- Provide strategic advice to senior executives on EA, technology application, process and business alignments

Skills

- Good written and verbal communications skills
- Good negotiation and persuasion skills
- 2+ years IT architecture design and project delivery skills
- Extensive experience in leading and supporting the delivery of Software and Infrastructure following best practice
- Experience in a variety of SDLCs including Waterfall and Agile
- Experience of LAN, WAN, Connectivity and Systems integration
- Deep understanding in full ALM (Application Lifecycle Management) covering planning, analysis, build, test and release
- Experience and awareness of SOA, MVC, OOD, OOP, PRINCE2, TOGAF, COBIT, XBRL, ZACHMAN and DevOPs,

TOGAF certification is highly desirable, allied with a breadth of data, applications, networks and business solutions experience. The role will involve working closely with Senior executives, Industry thought leaders, Business Analysts, Technical/Solution Architects, PMs and Service Managers. Therefore, the ability to build strong working relationships and influence positively is essential. This is an exciting opportunity to develop your career within a growing and dynamic company.
